**RE: Correction of ECFS Document List
For FCC Docket RM-10412**

Dear Sir or Madam:

The ECFS document list for **FCC Docket RM-10412** – Field Repair Requirements For Commercially-Built Transmitter and Transceiver Equipment for the Amateur Radio Service – incorrectly lists a brief comment filed on April 29, 2002 as being filed on my behalf.

Please be aware that I did not file this brief comment or have it filed in my name. Examining the brief comment shows that it is signed by Mr. Ken Meyer, amateur radio call sign K9KJM.

I have no connection with, or knowledge of, Mr. Meyer. Nor have I been involved in any way with the preparation of his comment.

Please correct the record on this point.

In addition, the Commission may wish to set up a comment security system that would prevent such errors from occurring in the future. In this system, each party commenting would obtain an identification with a password that he or she would use to submit comments to the ECFS. The Department of Transportation has such a feature on its Docket Management System (DMS) available as a user option.

Thank you for your help.

Sincerely,

Nickolaus E. Leggett
